

Job Title: Junior Python Developer

Company: TechNova Solutions Pvt. Ltd.

Location: Remote (India)

Type: Full-time

Job Description:

We are looking for a passionate Junior Python Developer to join our growing development team. As a Python Developer, you will be responsible for building efficient web applications and writing clean, testable code. You will work closely with senior developers and product managers.

Key Responsibilities:

- Develop and maintain Flask-based web applications.
- Use Natural Language Processing libraries like spaCy for text analysis.
- Integrate REST APIs and manage backend services.
- Collaborate using Git and GitHub for version control and team development.
- Write unit tests and maintain documentation.

Required Skills:

- Strong knowledge of Python and Flask.
- Familiarity with HTML, CSS, and JavaScript.
- Basic understanding of NLP concepts and tools like spaCy.
- Experience with Git, GitHub, and deployment on platforms like Render.
- Excellent problem-solving and communication skills.

Qualifications:

- Bachelor's degree in Computer Science, Information Technology, or related field.

- 0-1 year of experience or strong portfolio of projects.

Nice to Have:

- Experience with databases (e.g., PostgreSQL, SQLite).
- Knowledge of Docker or CI/CD pipelines.

We offer a flexible remote work culture, mentorship, and career growth opportunities.
